

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any “retail investor” in the United Kingdom (“UK”). For these purposes, a “retail investor” means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, “FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the **UK Prospectus Regulation**). Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Any person making or intending to make an offer of the Securities in any Member State of the EEA may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation, in each case, in relation to such offer.

None of the Issuer, the CGMHI Guarantor and any Dealer has authorised, nor do any of them authorise, the making of any offer of Securities in any other circumstances.

For the purposes hereof, the expression “**EU Prospectus Regulation**” means Regulation (EU) 2017/1129, (as amended).

The Securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), or the securities laws of any State thereof. The Securities do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act of 1936, as amended (the “**CEA**”), and trading in the Securities has not been approved by the Commodity Futures Trading Commission (the “**CFTC**”) pursuant to the CEA. No person has registered nor will register as a commodity pool operator of the Issuer under the CEA and the rules of the CFTC thereunder. The Issuer has not registered and will not register as an investment company under the U.S. Investment Company Act of 1940, as amended.

Accordingly, the Securities are being offered only to persons who are Permitted Non-U.S. Purchasers in offshore transactions in reliance upon Regulation S under the Securities Act (“**Regulation S**”). Each purchaser of the Securities or any beneficial interest therein will be deemed to have represented and agreed that it is a Permitted Non-U.S. Purchaser and that it will not sell or otherwise transfer the Securities or any beneficial interest therein at any time except to (1) the Issuer or its affiliates or (2) a Permitted Non-U.S. Purchaser in an offshore transaction in compliance with Regulation S.

A “**Permitted Non-U.S. Purchaser**” is a person that (i) is outside the United States at the time of any offer or sale of the Securities to it and is not a “U.S. person” as such term is defined under Rule 902(k)(1) of Regulation S; (ii) does not come within any definition of U.S. person for any purpose under the CEA or any rule, order, guidance or interpretation proposed or issued by the CFTC under the CEA (for the avoidance of doubt, a U.S. person shall include without limitation (a) any person who is either (x) not a “Non-United States person” as such term is defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for the purposes of subsection (D) thereof, the exception for qualified eligible persons who are not “Non-United States persons” or (y) not a “foreign located person” as defined in CFTC Rule 3.10(c)(1)(ii) and (b) any person who is a “U.S. Person” or a “Significant Risk Subsidiary”, or benefits from a “Guarantee”, in each case as such terms are defined in CFTC Rule 23.23(a) under the CEA, as such rule may be amended, revised, supplemented or superseded); (iii) is not a “U.S. Person” as defined in Rule 3a71-3(a)(4) under the United States Securities Exchange Act of 1934, as amended; and (iv) is not, and whose purchase and holding of the Securities is not made on behalf of or with “plan assets” of, an employee benefit plan subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), a plan, individual retirement account or other arrangement subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”) or an employee

benefit plan or other plan or arrangement subject to any laws, rules or regulations substantially similar to Title I of ERISA or Section 4975 of the Code.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Issuer, the Issuer's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

Key risks in respect of the Guarantor: The Guarantor is subject to the following key risks:

- The Guarantor is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the banking, insurance and securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Guarantor, the Guarantor's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Guarantor is expected to act as a source of financial strength for its U.S. insured depository institutions and to commit resources to support such banks. As a result, the Guarantor may be required to commit resources (in the form of investments or loans) to its U.S. insured depository institutions in amounts or at times that could adversely affect its ability to also fulfil its obligations under the Securities, and consequently the value of and return on the Securities.
- The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. In addition, ratings downgrades could have a significant and immediate impact on the Guarantor's funding and liquidity through cash obligations, reduced funding capacity and derivative triggers and additional margin requirements. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. A reduction in the Guarantor's or its subsidiaries' credit ratings could also widen the Guarantor's credit spreads or otherwise increase its borrowing costs and limit its access to the capital markets. Any of the foregoing factors may negatively impact the value of and return on the Securities.
- Adequate liquidity and sources of funding are essential to the Guarantor's businesses, and can be significantly and negatively impacted by factors the Guarantor cannot control, such as general disruptions in the financial markets, governmental fiscal and monetary policies, regulatory changes or negative investor perceptions of the Guarantor's creditworthiness. The Guarantor's ability to obtain funding may be impaired if other market participants are seeking to access the markets at the same time, or if market appetite declines, as is likely to occur in a liquidity stress event or other market crisis. A sudden drop in market liquidity could also cause a temporary or lengthier dislocation of underwriting and capital markets activity. In addition, clearing organisations, central banks, clients and financial institutions with which the Guarantor interacts may exercise the right to require additional collateral based on their perceptions or the market conditions, which could further impair the Guarantor's access to and cost of funding. These factors may negatively impact the market value of the Securities.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. The value of Securities prior to their scheduled redemption may vary due to a number of interrelated factors, including the value, dividend yield and volatility of the Underlying(s) and any changes in interim interest rates if applicable, and a sale of Securities prior to their scheduled termination may be at a substantial discount from the original purchase price and you may lose some or all of your investment. Further, you will receive no interest during the term of the Securities.
- The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment.
- Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities.
- Amounts due in respect of the Securities are linked to the performance of the Underlying(s), which is a security index. Global economic, financial and political developments, among other things, may have a material effect on the value of the component securities of, and/or the performance of, the Underlying(s), and in recent years, currency exchange rates and prices for component securities have been highly volatile. This may in turn affect the value of and return on the Securities.
- The Securities do not create an actual interest in, or ownership of, an Underlying. A Security will not represent a claim against an Underlying and, in the event that the amount paid on termination of the Securities is less than your investment, you will not have recourse under any relevant Security to an Underlying or other items which may comprise the Underlying(s) in respect of such Securities. You will have no legal or beneficial interest in an Underlying. You may receive a lower return on the Securities than you would have received had you invested directly in an Underlying or through another product.
- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the level of an Underlying is scheduled to be taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.

- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or an Underlying and/or hedging arrangements, or may replace an Underlying with a new security index. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
