Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Issuer on its audited historical financial information.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the banking, insurance and securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Issuer, the Issuer's ability to fulfil its obligations under the Notes may be adversely affected, and consequently the value of and return on the Notes may be adversely affected.
- The Issuer is expected to act as a source of financial strength for its subsidiary banks and to commit resources to support such banks. As a result, the Issuer may be required to commit resources (in the form of investments or loans) to its subsidiary banks in amounts or at times that could adversely affect its ability to also fulfil its obligations under the Notes, and consequently the value of and return on the Notes.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Notes are likely to be adversely affected. In addition, ratings downgrades could have a significant and immediate impact on the Issuer's funding and liquidity through cash obligations, reduced funding capacity and derivative triggers and additional margin requirements. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. A reduction in the Issuer's or its subsidiaries' credit ratings could also widen the Issuer's credit spreads or otherwise increase its borrowing costs and limit its access to the capital markets. Any of the foregoing factors may negatively impact the value of and return on the Notes.
- Adequate liquidity and sources of funding are essential to the Issuer's businesses, and can be significantly and negatively impacted by factors the Issuer cannot control, such as general disruptions in the financial markets, governmental fiscal and monetary policies, regulatory changes or negative investor perceptions of the Issuer's creditworthiness. The Issuer's ability to obtain funding may be impaired if other market participants are seeking to access the markets at the same time, or if market appetite declines, as is likely to occur in a liquidity stress event or other market crisis. A sudden drop in market liquidity could also cause a temporary or lengthier dislocation of underwriting and capital markets activity. In addition, clearing organisations, central banks, clients and financial institutions with which the Issuer interacts may exercise the right to require additional collateral based on their perceptions or the market conditions, which could further impair the Issuer's access to and cost of funding. These factors may negatively impact the market value of the Notes.

- The COVID-19 pandemic has had, and may continue to have, negative impacts on the businesses and overall results of operations and financial condition of Citigroup Inc. and its subsidiaries (the "**Group**") which could be material. Any such negative impact on the Group (including the Issuer), could adversely affect the ability of the Issuer to fulfil its obligations under the Notes, and consequently the value of and return on the Notes may also be adversely affected.
- Following the military action by Russia in Ukraine, the U.S. has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organisations and/or individuals, with similar actions implemented and/or planned by the European Union, the UK and other jurisdictions. The Group's ability to engage in activity with certain consumer and institutional businesses in Russia and Ukraine or involving certain Russian or Ukrainian businesses and customers is dependent in part upon whether such engagement is restricted under any current or expected U.S., European Union, UK or other countries' sanctions and laws, or is otherwise discontinued in light of these developments. Sanctions and export controls, as well as any actions by Russia, could adversely affect the Group's business activities and customers in and from Russia and Ukraine. Any negative impact of Russia's actions in Ukraine, and related sanctions, export controls and similar actions or laws on the Group, including the Issuer, could adversely affect the ability of the Issuer to fulfil its obligations under the Notes, and the value of and return on the Notes may also be adversely affected.

Issue Date	1 September 2023	Fixed Rate Notes

<p>Early Redemption: The Notes may be redeemed early following the occurrence of certain specified events or circumstances (including, for example, events of default and circumstances relating to taxation and illegality) at an amount determined by the calculation agent in accordance with the terms and conditions of the Notes.</p>		
<p>Meetings: The terms and conditions of the Notes contain provisions for calling meetings of holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.</p>		
<p>Governing law: The Notes will be governed by New York Law.</p>		
<p>Acknowledgement of United States special resolution regimes: The Notes contain an express contractual recognition that, in the event the Issuer becomes subject to a proceeding under a U.S. special resolution regime, the transfer of Notes to which the relevant U.S. legislation applies (and the transfer of any interest and obligation in or under such Notes) from the Issuer will be effective to the same extent as the transfer would be effective under such U.S. special resolution regime. In addition, the Notes contain an express contractual recognition that, in the event the Issuer and any of its affiliates becomes subject to a proceeding under a U.S. special resolution regime, certain default rights against the Issuer with respect to such Notes, are permitted to be exercised to no greater extent than they could be exercised under such U.S. special resolution regime. The exercise of any power under the U.S. special resolution regimes could materially adversely affect the rights of the holders of such Notes, and accordingly, the price or value of their investment in such Notes.</p>		
<p>Status of the Notes: The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will at all times rank <i>pari passu</i> and rateably among themselves and at least <i>pari passu</i> with all other unsecured and unsubordinated outstanding obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.</p>		
<p>Description of restrictions on free transferability of the Notes: The Notes will be transferable, subject to offering, selling and transfer restrictions of the laws of any jurisdiction in which the Notes are offered or sold.</p>		
Where will the Notes be traded?		
<p>Application has been made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the multilateral trading facility of EuroTLX managed by Borsa Italiana S.p.A. (“EuroTLX”).</p> <p>The EuroTLX is not a regulated market for the purpose of Directive 2014/65/EU (as amended, varied or replaced from time to time).</p>		
What are the key risks that are specific to the Notes?		
<p>The Notes are subject to the following key risks:</p>		
<ul style="list-style-type: none"> • The Notes are subject to usury limits which limit the amount of interest which may be paid on the Notes to 25 per cent. per annum on a simple interest basis. 		

<ul style="list-style-type: none"> Investment in the Notes involves the risk that if market interest rates subsequently increase above the amount and/or rate paid on the Notes, this will adversely affect the value of the Notes.
<ul style="list-style-type: none"> <i>Notes with variable or changeable interest rates or which include a multiplier or other leverage factor:</i> Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features. Any such volatility may have a material adverse effect on the value of and return on the Notes.
<ul style="list-style-type: none"> As amounts payable under the Notes are subject to a cap, your ability to participate in any change in the value of the relevant interest rate over the term of the Notes will be limited, no matter how much the relevant value increases. Accordingly, the value of or return on the Notes may be significantly less than if the cap had not applied or you had purchased another product not subject to a cap.
<ul style="list-style-type: none"> <i>Credit Risk:</i> The Issuer's obligations under the Notes represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Notes are subject to the credit risk of the Issuer. Noteholders will not have recourse to any secured assets of the Issuer in the event that the Issuer is unable to meet its obligations under the Notes, including in the event of an insolvency, and therefore risk losing some or all of their investment.
<ul style="list-style-type: none"> <i>Market Risk:</i> Notes may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Notes until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Notes easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Notes.
<ul style="list-style-type: none"> Certain interest rate benchmark including EURIBOR have been the subject of recent national and international regulatory scrutiny and there is ongoing international regulatory reform. Any of the reforms or the general increased regulatory scrutiny may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the methodologies of benchmarks and/or lead to the disappearance of benchmarks, which could have a material adverse effect on the value of and return on the Notes. Following the occurrence of any material change to any relevant rate or events affecting authorisations or licensing or if the relevant rate is no longer representative of the relevant market, the terms of the Notes may be amended to account for any such event, which may result in a lower return on the Notes, or the Notes may be early redeemed
<ul style="list-style-type: none"> <i>Early redemption:</i> In certain circumstances (for example, following an event of default or for reasons relating to taxation or illegality), the Notes may be early redeemed. If the Notes are redeemed early, the amount paid may be less than your initial investment and you may therefore sustain a loss.

Within such period investors may communicate their withdrawal to the relevant placer without any charge or commission.

The Offer Price is EUR 1,000 per Note (the "**Issue Price**").

The Issuer reserves the right, in agreement with the Distributor, to increase the number of Notes to be issued during the Offer Period.

The effectiveness of the offer of the Notes is conditional upon the admission to trading of the Notes on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A., occurring by the issue date, being 1 September 2022. As between the Authorised Offeror and its customers, offers of the Notes are further subject to such conditions as may be agreed between them and/or as is specified in the arrangements in place between them.

Estimated expenses or taxes charged to the investor by issuer/offeror: The Issue Price of EUR 1,000 per Note includes a distribution fee of up to 1.00 per cent. (1.00%) of the Issue Price paid by the Dealer to the Distributor.

The exact amount of the distribution fee will be published not later than five Business Days after close of the Offer Period on the website of the Issuer (<https://it.citifirst.com>).

Who is the offeror and/or the person asking for admission to trading?

See the item entitled "Authorised Offeror(s)" above. The Issuer is the entity requesting for the admission to trading of the Notes.

Why is the Prospectus being produced?

Use and estimated net amount of proceeds: The net proceeds of the issue of Notes will be used for general corporate purposes, which may include capital contributions to its subsidiaries and/or the reduction or refinancings of borrowings of the Issuer or its subsidiaries. Citigroup Inc. expects to incur additional indebtedness in the future.

The estimated net amount of proceeds is an amount equal to the final aggregate principal amount of the Notes issued on the issue date.

Underwriting agreement on a firm commitment basis: The offer of the Notes is not subject to an underwriting agreement on a firm commitment basis.

Description of any interest material to the issue/offer, including conflicting interests: Fees are payable to the distributor(s). The terms of the Notes confer on the Issuer, the calculation agent and certain other persons discretion in making judgements, determinations and calculations in relation to the Notes. Potential conflicts of interest may exist between the Issuer, calculation agent and holders of the Notes, including with respect to such judgements, determinations and calculations. The Issuer and/or any of its affiliates may also from time to time engage in transactions or enter into business relationships for its own account and/or possess information which affect or relate to the Notes. The Issuer and/or any of its affiliates have no obligation to disclose to investors any such information and may pursue actions and take steps that it deems necessary or appropriate to protect its interests without regard to the consequences for investors. Save as described above, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.

Quali sono i principali fattori di rischio specifici relativi all'Emittente?

L'Emittente è esposto ai seguenti fattori di rischio principali:

- L'Emittente è una holding che non svolge alcuna attività commerciale rilevante che genera ricavi. Adempie alle proprie obbligazioni principalmente con dividendi e anticipi che riceve dalle proprie controllate. Le sue controllate che operano nel settore bancario, assicurativo e finanziario possono pagare i dividendi solo se sono conformi ai requisiti regolamentari a loro applicabili imposti dalle autorità regolamentari federali o statali e possono inoltre essere soggette a contratti di credito che possono limitarne la capacità di pagamento dei dividendi. Nel caso in cui tali controllate non realizzino utili sufficienti per soddisfare i requisiti regolamentari applicabili, o se tali requisiti sono cambiati limitando ulteriormente la capacità di tali controllate di pagare i dividendi all'Emittente, la capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi dei Titoli potrebbe risentirne negativamente e di conseguenza anche il valore e il rendimento dei Titoli potrebbero risentirne negativamente.
- L'Emittente è tenuto a conferire solidità finanziaria alle proprie banche controllate e ad impegnare risorse per sostenere tali banche. Di conseguenza, l'Emittente potrebbe essere tenuto a impegnare risorse (sotto forma di

investimenti o prestiti) in favore delle sue banche controllate per importi o in momenti tali da incidere negativamente sulla sua capacità di adempiere agli obblighi che gli competono ai sensi dei Titoli e, di conseguenza, sul valore e sul rendimento dei Titoli.

- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato dei Titoli ne risentano negativamente. Inoltre, i declassamenti del rating potrebbero avere un impatto significativo e immediato sulla capacità dell'Emittente di raccogliere fondi e liquidità, comportando obblighi di liquidità, riducendo la capacità di finanziamento, attivando trigger su derivati e imponendo requisiti di margine aggiuntivi. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti. Una riduzione dei rating creditizi dell'Emittente o delle relative controllate potrebbe inoltre ampliare gli spread creditizi dell'Emittente o comunque aumentarne gli oneri di finanziamento e limitarne l'accesso ai mercati dei capitali. Qualunque fattore sopramenzionato può influire negativamente sul valore e sul rendimento dei Titoli.
- Liquidità e fonti di finanziamento adeguate sono essenziali per le attività dell'Emittente e possono risentire in misura estremamente negativa di fattori che ricadono fuori del controllo dell'Emittente, come eventi di turbativa generale dei mercati finanziari, adozione di politiche fiscali e monetarie da parte delle autorità, modifiche regolamentari o percezioni negative degli investitori dell'affidabilità creditizia dell'Emittente. La capacità dell'Emittente di ottenere finanziamenti può risultare compromessa se altri operatori di mercato cercano di accedere ai mercati allo stesso tempo o se la propensione del mercato diminuisce, come è probabile in caso di tensioni di liquidità o altra crisi di mercato. Inoltre, un improvviso calo della liquidità di mercato potrebbe causare una dislocazione più o meno lunga dell'attività di sottoscrizione e dei mercati dei capitali. Inoltre, gli organismi di compensazione, le banche centrali, i clienti e gli istituti finanziari con cui l'Emittente interagisce possono esercitare il diritto di richiedere garanzie collaterali aggiuntive in base alle loro percezioni o alle condizioni di mercato, che potrebbero ulteriormente compromettere l'accesso dell'Emittente ai finanziamenti e il costo degli stessi. Questi fattori possono influire negativamente sul valore di mercato dei Titoli.
- La pandemia di COVID-19 ha prodotto, e potrebbe continuare a produrre, impatti negativi potenzialmente rilevanti sulle attività e i risultati complessivi delle operazioni e sulle condizioni finanziarie di Citigroup Inc. e relative controllate (il "Gruppo"). Qualsiasi impatto negativo di questo tipo sul Gruppo (Emittente incluso) potrebbe influire negativamente sulla capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi dei Titoli e, di conseguenza, anche il valore e il rendimento dei Titoli potrebbero esserne negativamente influenzati.
- A seguito dell'azione militare della Russia in Ucraina, gli Stati Uniti hanno imposto, e probabilmente imporranno ulteriori sanzioni finanziarie ed economiche e controlli sulle esportazioni nei confronti di alcune organizzazioni e/o individui Russi, con azioni simili attuate e/o pianificate dall'Unione Europea, dal Regno Unito e da altre giurisdizioni. La capacità del Gruppo di impegnarsi in attività con determinate imprese di consumo e istituzionali in Russia e Ucraina o che coinvolgono alcune imprese e clienti russi o ucraini dipende in parte dal fatto che tale impegno sia limitato o meno da qualsiasi azione in corso o prevista dagli Stati Uniti, Unione Europea, Regno Unito o da sanzioni e leggi di altri paesi, o sia diversamente interrotto alla luce di questi sviluppi. Sanzioni e controlli sulle esportazioni così come eventuali azioni da parte della Russia, potrebbero influenzare negativamente le attività commerciali del Gruppo e i clienti in e dalla Russia e dall'Ucraina. Qualsiasi impatto negativo delle azioni della Russia in Ucraina, e relative sanzioni, controlli sulle esportazioni e azioni o leggi simili sul Gruppo, incluso l'Emittente, potrebbe influenzare negativamente la capacità dell'Emittente di adempiere ai propri obblighi ai sensi dei Titoli, e anche il valore e il rendimento dei Titoli potrebbero essere influenzati negativamente.

Tabella delle Basi di Interesse

Regolamento Anticipato: I Titoli possono essere rimborsati anticipatamente, a seguito del verificarsi di determinati eventi o circostanze specifiche (inclusi ad esempio un evento di *default* e circostanze relative a motivi fiscali o di illegalità), ad un importo determinato dall'agente per il calcolo conformemente ai termini e alle condizioni dei Titoli.

Assemblee: I termini e le condizioni dei Titoli contengono disposizioni per la convocazione di assemblee dei portatori per valutare questioni aventi un impatto sui loro interessi in generale. Tali disposizioni consentono a maggioranze predefinite di vincolare tutti i portatori, inclusi i portatori che non abbiano partecipato e votato all'assemblea del caso e i portatori che abbiano votato in maniera contraria alla maggioranza.

Diritto applicabile: I Titoli saranno disciplinati dal diritto dello Stato del New York.

Riconoscimento dei regimi di risoluzione speciale degli Stati Uniti: I Titoli contengono un esplicito riconoscimento contrattuale in base a cui, qualora l'Emittente diventi oggetto di un'azione legale ai sensi di un regime di risoluzione speciale degli Stati Uniti, il trasferimento dei Titoli a cui si applica la legislazione statunitense pertinente (e il trasferimento di qualsiasi interesse e obbligo inerente a o derivante da tali Titoli) fornito dall'Emittente sarà efficace solo nella misura in cui in cui tale trasferimento sarebbe efficace ai sensi di tale regime di risoluzione speciale degli Stati Uniti. Inoltre, i Titoli contengono un esplicito riconoscimento contrattuale in base al quale, qualora l'Emittente e le relative collegate diventino oggetto di un procedimento ai sensi di un regime di risoluzione speciale degli Stati Uniti, determinati diritti per inadempienza nei confronti dell'Emittente in relazione a tali Titoli possono essere esercitati solo nella misura consentita ai sensi di tale regime di risoluzione speciale degli Stati Uniti. L'esercizio di qualsiasi facoltà ai sensi dei regimi di risoluzione speciale degli Stati Uniti potrebbe influire in misura significativamente negativa sui diritti dei portatori di tali Titoli e, di conseguenza, sul prezzo o sul valore del loro investimento in tali Titoli.

Status dei Titoli: I Titoli costituiscono obbligazioni dirette, non condizionate, non subordinate e non garantite dell'Emittente e si classificheranno in ogni momento *pari passu* e pro quota tra loro e almeno *pari passu* rispetto a tutte le altre obbligazioni non garantite e non subordinate in circolazione dell'Emittente, salvo le obbligazioni privilegiate ai sensi di leggi inderogabili e di applicazione generale.

Descrizione delle restrizioni alla libera trasferibilità dei Titoli: I Titoli saranno trasferibili, salvo le restrizioni di offerta, vendita e trasferimento previste dalle leggi vigenti in qualsiasi giurisdizione in cui i Titoli sono offerti o venduti.

Dove verranno negoziati i Titoli?

È stata depositata dall'Emittente (o per suo conto) una richiesta di ammissione alla negoziazione dei Titoli sul sistema multilaterale di negoziazione EuroTLX gestito da Borsa Italiana S.p.A. ("**EuroTLX**").

Il Mercato EuroTLX non è un mercato regolamentato ai sensi della Direttiva 2014/65/UE (come modificata o sostituita di volta in volta).

Quali sono i principali fattori di rischio specifici relativi ai Titoli?

I Titoli sono esposti ai seguenti fattori di rischio principali:

- I Titoli sono soggetti a limiti di usura che limitano l'importo degli interessi che possono essere pagati sui Titoli al 25 per cento per annum a tasso semplice.
- L'investimento nei Titoli comporta il rischio che il successivo aumento dei tassi di interesse di mercato al di sopra dell'importo e/o tasso pagato sui Titoli, incida negativamente sul valore dei Titoli.
- *Titoli con tassi di interesse variabile o che includono un moltiplicatore o un altro fattore di leva:* i Titoli con tassi di interesse variabili possono essere investimenti volatili. Se sono strutturati per includere moltiplicatori o altri fattori di leva, o *cap* o *floor*, o qualsiasi combinazione di tali caratteristiche o altre caratteristiche simili, i loro valori di mercato possono essere ancora più volatili di quelli per i titoli che non includono tali caratteristiche. Tale volatilità può avere un effetto negativo materiale sul valore e sul rendimento dei Titoli.
- Poiché gli importi pagabili ai sensi dei Titoli sono soggetti a un limite massimo, la sua capacità di partecipare a qualsiasi variazione del valore del relativo tasso di interesse nel corso della durata dei Titoli sarà limitata, indipendentemente da quanto il relativo valore aumenti. Di conseguenza, il valore o il rendimento dei Titoli potrebbe essere significativamente inferiore rispetto a quello che si avrebbe se limite non fosse stato applicato o se avesse acquistato un altro prodotto non soggetto al limite.
- *Rischio di credito:* Gli obblighi dell'Emittente ai sensi dei Titoli rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun altro soggetto. Di conseguenza, i pagamenti effettuati ai sensi dei Titoli sono esposti al rischio di credito dell'Emittente. I portatori di Titoli non potranno fare ricorso ad alcuna attività garantita dell'Emittente nel caso in cui l'Emittente non sia in grado di soddisfare gli obblighi che ad esso competono ai sensi dei Titoli, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.
- *Rischio di mercato:* I Titoli potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere i Titoli fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Titoli o potrebbe non riuscirvi affatto o potrebbe non essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo

<p>potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura particolarmente negativa sul valore di mercato dei Titoli.</p>
<ul style="list-style-type: none"> Alcuni benchmark sui tassi di interesse, incluso EURIBOR, sono stati oggetto di recenti controlli normativi nazionali e internazionali e sono in corso riforme normative internazionali. Le riforme o l'aumento generale del controllo normativo possono scoraggiare gli operatori di mercato dal continuare ad amministrare o contribuire ai benchmark, innescare cambiamenti nelle metodologie dei benchmark e/o portare alla scomparsa dei benchmark, il che potrebbe avere un effetto negativo rilevante sul valore e sul rendimento dei Titoli. A seguito del verificarsi di qualsiasi modifica sostanziale di qualsiasi tasso di riferimento o di eventi che incidono sulle autorizzazioni o licenze o se il tasso di riferimento non è più rappresentativo del mercato di riferimento, i termini dei Titoli possono essere modificati per tener conto di tale evento, il che può comportare un rendimento inferiore dei Titoli, o i Titoli possono essere rimborsate anticipatamente.
<ul style="list-style-type: none"> <i>Rimborso anticipato:</i> In determinate circostanze (ad esempio, a seguito di un evento di default o per motivi fiscali o di illegalità), i Titoli possono essere rimborsati anticipatamente. Se i Titoli sono rimborsate anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste pertanto subire una perdita.

L'Emittente, e/o qualsiasi sua collegata possono inoltre di tanto in tanto effettuare transazioni o instaurare rapporti d'affari per proprio conto e/o possedere informazioni che influiscono su o riguardano i Titoli. L'Emittente, e/o qualsiasi sua collegata non ha alcun obbligo di rendere note agli investitori tali informazioni e possono intraprendere le azioni e adottare le misure che ritiene necessarie o appropriate per tutelare i propri interessi, senza tenere conto delle conseguenze per gli investitori. Salvo quanto descritto sopra, per quanto a conoscenza dell'Emittente, nessun soggetto coinvolto nell'offerta dei Titoli ha un interesse di rilevante importanza per l'offerta.
