### What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Issuer, the Issuer's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.

**Qualifications in audit report on historical financial information:** There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

**Key risks in respect of the Guarantor:** The Guarantor is subject to the following key risks:

- The Guarantor is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the banking, insurance and securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Guarantor, the Guarantor's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Guarantor is expected to act as a source of financial strength for its U.S. insured depository institutions and to commit resources to support such banks. As a result, the Guarantor may be required to commit resources (in the form of investments or loans) to its U.S. insured depository institutions in amounts or at times that could adversely affect its ability to also fulfil its obligations under the Securities, and consequently the value of and return on the Securities.
- The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. In addition, ratings downgrades could have a significant and immediate impact on the Guarantor's funding and liquidity through cash obligations, reduced funding capacity and derivative triggers and additional margin requirements. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. A reduction in the Guarantor's or its subsidiaries' credit ratings could also widen the Guarantor's credit spreads or otherwise increase its borrowing costs and limit its access to the capital markets. Any of the foregoing factors may negatively impact the value of and return on the Securities.
- Adequate liquidity and sources of funding are essential to the Guarantor's businesses, and can be significantly and negatively impacted by factors the Guarantor cannot control, such as general disruptions in the financial markets, governmental fiscal and monetary policies, regulatory changes or negative investor perceptions of the Guarantor's creditworthiness. The Guarantor's ability to obtain funding may be impaired if other market participants are seeking to access the markets at the same time, or if market appetite declines, as is likely to occur in a liquidity stress event or other market crisis. A sudden drop in market liquidity could also cause a temporary or lengthier dislocation of underwriting and capital markets activity. In addition, clearing organisations, central banks, clients and financial institutions with which the Guarantor interacts may exercise the right to require additional collateral based on their perceptions or the market conditions, which could further impair the Guarantor's access to and cost of funding. These factors may negatively impact the market value of the Securities

#### What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. The value of Securities prior to their scheduled termination may vary due to a number of interrelated factor, including the value, dividend yield and volatility of the Underlying and any changes in interim interest rates if applicable, and a sale of Securities prior to their scheduled termination may be at a substantial discount from the original purchase price and you may lose some or all of your investment. If, at maturity, a Termination Barrier Event and a Termination Upper Barrier Event has not occurred and the Final Reference Level of the Termination Underlying is less than its Termination Initial Level, the Securities may be terminated for less than your initial investment or even zero. Further, you will receive no interest during the term of the Securities.
- The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment.
- Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities.
- Amounts due in respect of the Securities are linked to the performance of the Underlying(s), which is a share. The value of a share may go down as well as up and the value of a share on any date may not reflect its performance in any prior period. The value and price volatility of a share, may affect the value of and return on the Securities.
- The Securities do not create an actual interest in, or ownership of, an Underlying and accordingly you will not have voting rights or rights to receive dividends or distributions or any other rights with respect to an Underlying. A Security will not represent a claim against an Underlying and, in the event that the amount paid on redemption of the Securities is less than your investment, you will not have recourse under any relevant Security to an Underlying in respect of such Securities. You will have no legal or beneficial interest in an Underlying. You may receive a lower return on the Securities than you would have received had you invested directly in an Underlying or through another product.
- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the price of an Underlying is scheduled to be

taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.

- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or an Underlying and/or hedging arrangements, or may replace an Underlying with a new share. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
- Following the occurrence of a Mandatory Early Termination Barrier Event, the Securities will be terminated on the relevant Mandatory Early Termination Date at the relevant Mandatory Early Termination Amount and no further amount shall be payable in respect of the Securities after the Mandatory Early Termination Date. In this case, you are subject to a reinvestment risk, as you may not be able to replace your investment in the Securities with an investment that has a similar profile of chances and risks as the Securities.
- The effectiveness of the offer of Securities will be conditional upon admission to trading by the issue date. In the event such admission to trading does not take place by the issue date, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation therefor.

#### Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- L'Emittente è una holding che non si impegna in una quantità significativa di attività commerciali che generano entrate. Esso adempie alle sue obbligazioni principalmente con dividendi e anticipi dalle sue filiali. Le sue filiali che operano nel settore dei titoli possono pagare dividendi solo se sono in conformità con i requisiti normativi applicabili imposti loro dalle autorità di regolamentazione federali e statali, e possono anche essere soggette a contratti di credito che possono limitare la loro capacità di pagare dividendi. Se tali filiali non realizzano utili sufficienti a soddisfare i requisiti normativi applicabili, o se tali requisiti vengono modificati per limitare ulteriormente la capacità di tali filiali di pagare dividendi all'Emittente, la capacità dell'Emittente di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari può subire un effetto negativo, e di conseguenza può avere un effetto negativo sul il valore e sul rendimento degli Strumenti Finanziari.
- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato dei Titoli ne risentano. Un declassamento del rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.

**Regolamento Anticipato:** Gli Strumenti Finanziari possono essere regolati anticipatamente a seguito del verificarsi di alcuni eventi o circostanze specifiche (ad esempio, compreso un evento che influisce sul Sottostante (o sui Sottostanti) o sugli accordi di copertura dell'Emittente, un evento di default, e circostanze relative alla tassazione e all'illegalità) ad un importo che sarà determinato dall'agente di calcolo in conformità con i termini e le condizioni degli Strumenti Finanziari

**Rettifiche:** I termini e le condizioni degli Strumenti Finanziari contengono disposizioni, incluse le disposizioni relative agli eventi che riguardano il/i Sottostante/i o gli accordi di copertura in relazione agli Strumenti Finanziari, le disposizioni relative alla turbativa del mercato e le disposizioni relative alle successive correzioni del livello del/i Sottostante/i e i dettagli delle conseguenze di tali eventi. Tali disposizioni possono consentire, se del caso, di apportare modifiche ai termini e alle condizioni degli Strumenti Finanziari. I termini e le condizioni degli Strumenti Finanziari permettono inoltre la rettifica delle date di pagamento per i giorni non lavorativi.

**Assemblee:** I termini e le condizioni degli Strumenti Finanziari contengono disposizioni per la convocazione di assemblee dei possessori degli Strumenti

Inoltre, gli Strumenti Finanziari contengono un esplicito riconoscimento contrattuale che, nel caso in cui l'Emittente o il Garante e qualsiasi loro affiliata sia soggetta ad un procedimento ai sensi di un regime di risoluzione speciale negli Stati Uniti, alcuni diritti di inadempimento contro l'Emittente o il Garante, a seconda dei casi, in relazione a tali Strumenti Finanziari o atti di garanzia, possono essere esercitati in misura non superiore a quella in cui potrebbero essere esercitati ai sensi di tale regime di risoluzione speciale negli Stati Uniti. L'esercizio di qualsiasi potere ai sensi dei regimi speciali di risoluzione degli Stati Uniti potrebbe influire negativamente sui diritti dei portatori di tali Strumenti Finanziari e, di conseguenza, sul prezzo o sul valore del loro investimento in tali Strumenti Finanziari.

**Stato degli Strumenti Finanziari:** Gli Strumenti Finanziari costituiscono obbligazioni dirette, non condizionate, non subordinate e non garantite dell'Emittente e si classificheranno in ogni momento *pari passu e pro quota* tra loro e almeno *pari passu* rispetto a tutte le altre obbligazioni non garantite e non subordinate in circolazione dell'Emittente, salvo le obbligazioni privilegiate ai sensi di leggi inderogabili e di applicazione generale.

**Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari:** Gli Strumenti Finanziari saranno liberamente trasferibili, salvo le restrizioni di offerta, vendita e trasferimento previste dalle leggi vigenti in qualsiasi giurisdizione in cui gli Strumenti Finanziari sono offerti o venduti.

<b>Fattori di rischio associati al Garante:</b>			
Il Garante è soggetto ai seguenti rischi principali:			
<ul style="list-style-type: none"> <li>Il Garante è una holding che non si impegna in alcuna significativa attività commerciale che generi entrate. Esso adempie alle sue obbligazioni principalmente con dividendi e anticipi dalle sue filiali. Le sue filiali che operano nel settore dei titoli possono pagare dividendi solo se sono in conformità con i requisiti normativi applicabili imposti loro dalle autorità di regolamentazione federali e statali, e possono anche essere soggette a contratti di credito che possono limitare la loro capacità di pagare dividendi. Se tali filiali non realizzano utili sufficienti a soddisfare i requisiti normativi applicabili, o se tali requisiti vengono modificati per limitare ulteriormente la capacità di tali filiali di pagare dividendi al Garante, la capacità del Garante di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari può subire un effetto negativo, e di conseguenza può avere un effetto negativo sul il valore e sul rendimento degli Strumenti Finanziari.</li> <li>Ci si aspetta che il Garante agisca come fonte di forza finanziaria per i suoi istituti di deposito assicurati negli Stati Uniti e che impegni risorse per sostenere tali banche. Di conseguenza, al Garante può essere richiesto di impegnare risorse (sotto forma di investimenti o prestiti) per i suoi istituti di deposito assicurati negli Stati Uniti in quantità o in tempi che potrebbero influire negativamente sulla sua capacità di adempiere anche ai suoi obblighi ai sensi degli Strumenti Finanziari, e di conseguenza sul valore e sul rendimento degli Strumenti Finanziari.</li> <li>Il Garante potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato al Garante e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risentano. Inoltre, un declassamento dei rating potrebbe avere un impatto significativo ed immediato sul finanziamento e sulla liquidità del Garante attraverso obblighi di cassa, capacità di finanziamento ridotta e <i>trigger</i> di derivati e requisiti di margine aggiuntivi. Il declassamento dei rating potrebbe anche avere un impatto negativo su altre fonti di finanziamento, come i finanziamenti garantiti e altri requisiti di margine, per i quali non esistono trigger espliciti. Una riduzione dei rating del Garante o delle sue controllate potrebbe anche ampliare gli spread di credito del Garante o altrimenti aumentare i suoi costi di finanziamento e limitare il suo accesso ai mercati dei capitali. Ognuno dei suddetti fattori potrebbe avere un impatto negativo sul valore e sul rendimento degli Strumenti Finanziari.</li> <li>Un'adeguata liquidità e fonti di finanziamento sono essenziali per le attività del Garante e possono essere significativamente e negativamente influenzate da fattori che il Garante non può controllare, come ad esempio perturbazioni generali dei mercati finanziari, politiche fiscali e monetarie governative, cambiamenti normativi o percezioni negative degli investitori sull'affidabilità creditizia del Garante. La capacità del Garante di ottenere finanziamenti può essere compromessa se altri partecipanti al mercato cercano di accedere ai mercati nello stesso momento, o se l'appetito del mercato diminuisce, come è probabile che accada in un evento di stress da liquidità o in un'altra crisi di mercato. Un improvviso calo della liquidità di mercato potrebbe anche causare una temporanea o più lunga dislocazione delle attività di sottoscrizione e dei mercati dei capitali. Inoltre, gli organismi di compensazione, le banche centrali, i clienti e le istituzioni finanziarie con cui il Garante interagisce possono esercitare il diritto di richiedere ulteriori garanzie in base alla loro percezione o alle condizioni di mercato, il che potrebbe compromettere ulteriormente l'accesso e il costo di finanziamento del Garante. Questi fattori potrebbero avere un impatto negativo sul valore di mercato degli Strumenti Finanziari.</li> </ul>			
<b>Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?</b>			
Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:			
<ul style="list-style-type: none"> <li>Dovete essere pronti a sostenere una perdita totale o parziale del prezzo di acquisto dei vostri Strumenti Finanziari. Il valore degli Strumenti Finanziari prima del loro regolamento programmato può variare a causa di una serie di fattori interconnessi, tra cui il valore, il rendimento dei dividendi e la volatilità del/i Sottostante/i e qualsiasi cambiamento nei tassi di interesse intermedi, se applicabili, e una vendita degli Strumenti Finanziari prima del loro rimborso programmato può avvenire ad uno sconto sostanziale rispetto al prezzo di acquisto originale e si può perdere parte o tutto il proprio investimento. Se, alla scadenza, non si sono verificati un Evento Barriera di Regolamento e un Evento Barriera di Regolamento Superiore ed il Livello di Riferimento Finale del Sottostante di Regolamento è inferiore al suo Livello Iniziale di Regolamento, gli Strumenti Finanziari potrebbero essere rimborsati inferiormente rispetto al vostro investimento iniziale o addirittura zero. Inoltre, non riceverete alcun interesse durante la vita degli Strumenti Finanziari.</li> <li>Gli obblighi dell'Emittente ai sensi degli Strumenti Finanziari e gli obblighi del Garante previsti dall'atto di garanzia rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun'altra persona. Di conseguenza, i pagamenti effettuati ai sensi degli Strumenti Finanziari sono esposti al rischio di credito dell'Emittente e del Garante. I portatori degli Strumenti Finanziari non potranno fare ricorso ad</li> </ul>			

alcuna attività garantita dell'Emittente e del Garante nel caso in cui l'Emittente o il Garante non siano in grado di soddisfare gli obblighi che loro competono ai sensi degli Strumenti Finanziari, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.

- Gli Strumenti Finanziari potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere gli Strumenti Finanziari fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Strumenti Finanziari o potrebbe non riuscirvi affatto o potrebbe essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura negativa rilevante sul valore di mercato degli Strumenti Finanziari.
- Gli importi dovuti a fronte degli Strumenti Finanziari sono legati all'andamento del/i Sottostante/i, che è un'azione. Il valore di un'azione può diminuire o aumentare e il valore di un'azione in qualsiasi data può non riflettere il suo rendimento in qualsiasi periodo precedente. Il valore e la volatilità del prezzo di un'azione possono influenzare il valore e il rendimento degli Strumenti Finanziari.
- Gli Strumenti Finanziari non creano una partecipazione effettiva in, o la proprietà di, un Sottostante e di conseguenza non avrete diritto di voto o di ricevere dividendi o distribuzioni o qualsiasi altro diritto in relazione ad un Sottostante. Uno Strumento Finanziario non rappresenterà un credito nei confronti di un Sottostante e, nel caso in cui l'importo pagato al momento del regolamento degli Strumenti Finanziari sia inferiore al vostro investimento, non rivalervi ai sensi degli Strumenti Finanziari su alcun Sottostante. Non avrete alcun interesse o beneficio legale in un Sottostante. Potreste ricevere un rendimento sugli Strumenti Finanziari inferiore a quello che avreste ricevuto se aveste investito direttamente in un Sottostante o attraverso un altro prodotto.
- I termini e le condizioni degli Strumenti Finanziari includono disposizioni relative al rinvio delle date in cui si prevede di ottenere il prezzo di un Sottostante. Tale rinvio o disposizioni alternative di valutazione previste nei termini e condizioni degli Strumenti Finanziari possono avere un effetto negativo sul valore di tali Strumenti Finanziari.
- L'agente di calcolo può effettuare rettifiche alle condizioni degli Strumenti Finanziari per tenere conto dell'effetto di alcuni eventi di rettifica che si verificano in relazione agli Strumenti Finanziari o ad un Sottostante e/o ad accordi di copertura, o può sostituire un Sottostante con un nuovo indice di titoli. Tali rettifiche possono avere un effetto negativo sul valore di tali Strumenti Finanziari. In determinate circostanze (ad esempio, se l'agente di calcolo determina che non è ragionevolmente possibile effettuare alcun calcolo, aggiustamento o sostituzione, a seguito di un evento di default o di determinati eventi che influenzano un Sottostante o gli accordi di copertura dell'Emittente, o per ragioni relative alla tassazione o all'illegalità), gli Strumenti Finanziari possono essere regolati anticipatamente. Se gli Strumenti Finanziari vengono regolati anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste quindi subire una perdita.
- A seguito del verificarsi di un Evento di Barriera di Regolamento Anticipato Obbligatorio, gli Strumenti Finanziari saranno regolati alla relativa Data di Regolamento Anticipato Obbligatorio al relativo Importo di Regolamento Anticipato Obbligatorio e nessun ulteriore importo sarà dovuto in relazione agli Strumenti Finanziari dopo la Data di Regolamento Anticipato Obbligatorio. In questo caso, siete soggetti al rischio di reinvestimento, in quanto potreste non essere in grado di sostituire il vostro investimento negli Strumenti Finanziari con un investimento che abbia un profilo di probabilità e di rischio simile a quello degli Strumenti Finanziari.
- L'efficacia dell'offerta degli Strumenti Finanziari sarà subordinata all'ammissione alla negoziazione entro la data di emissione. Nel caso in cui tale ammissione alla negoziazione non avvenga entro la data di emissione, l'Emittente ritirerà l'offerta, l'offerta sarà considerata nulla e non valida e i relativi Strumenti Finanziari non saranno emessi. Di conseguenza, non riceverete alcuno Strumento Finanziario, i diritti di sottoscrizione degli Strumenti Finanziari saranno cancellati e non avrete diritto ad alcun indennizzo.
