## 1. What is this product?

### Type

New York law governed notes

### Objectives

The product is designed to provide (1) a return in the form of variable interest payments calculated by reference to the **reference rate** and (2) repayment of the **product notional amount** on the **maturity date**. The product has a fixed term and will terminate on the **maturity date**.

**Interest:** On each **interest payment date** you will receive an interest payment calculated by multiplying the **product notional amount** by the applicable **interest rate** and then applying the relevant **day count fraction** to adjust this amount to reflect the length of the relevant **interest period**. The relevant dates and interest rates are shown in the table(s) below.

Interest payment dates	Interest rates
14 October 2022	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
17 January 2023	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
14 April 2023	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
14 July 2023	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
16 October 2023	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
16 January 2024	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
15 April 2024	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
15 July 2024	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
15 October 2024	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
14 January 2025	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
14 April 2025	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%
Maturity date	A per annum rate equal to 3M EURIBOR, subject to a floor of 1.35% and a cap of 2.50%

**Termination on the maturity date:** On termination of the product on the **maturity date** you will receive EUR 1,000.00.

EURIBOR is subject to regulatory reform and may cease to be calculated and/or may be replaced with another rate during the term of this product. The consequences of this are unpredictable and may have an adverse financial impact on this product.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

**Intended retail investor** The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
- they seek income and/or full protection of the product notional amount, subject to the issuer's and the guarantor's ability to pay, expect the movement in the reference rate to perform in a way that generates a favourable return and have an investment horizon of the recommended holding period specified below;
- they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product but otherwise they are not able to bear any loss of their investment; and
- they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

The product is not intended to be offered to retail clients who do not fulfil these criteria.

## 2. What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

You are entitled to receive back at least 100.00% of your capital. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

**Performance scenarios** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

<i>Investment: EUR 10,000</i>				
Scenarios		1 year	2 years	3 years (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 10,221.29	EUR 10,255.07	EUR 10,411.00
	Average return each year	2.21%	1.27%	1.35%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 10,221.29	EUR 10,255.07	EUR 10,411.00
	Average return each year	2.21%	1.27%	1.35%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10,221.29	EUR 10,255.07	EUR 10,411.00
	Average return each year	2.21%	1.27%	1.35%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 10,221.29	EUR 10,255.07	EUR 10,411.00
	Average return each year	2.21%	1.27%	1.35%

This table shows the money you could get back over the next 3 years under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

#### 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

##### Costs over time

<i>Investment: EUR 10,000</i>			
<i>Scenarios</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 2 years</i>	<i>If you cash in at the end of the recommended holding period</i>
<b>Total costs</b>	EUR 250.00	EUR 250.00	EUR 150.00
<b>Impact on return (RIY) per year</b>	2.57177%	1.26444%	0.51189%

The "Total costs" in the table above represents in monetary terms the aggregated amount of costs associated with the investment, assuming the product performs in line with the moderate performance scenario. The "Impact on return" represents how much the expected costs of the product would affect your return in such scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs as a percentage of the **product notional amount** are estimated to be 2.50% if you cash in after 1 year, 2.50% if you cash in after 2 years and 1.50% if you cash in at the end of the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

##### Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

*The table shows the impact on return per year.*

<b>One-off costs</b>	<i>Entry costs</i>	0.51189%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
<b>Ongoing costs</b>	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 1.50% and exit costs: 0.00%.

#### 5. How long should I hold it and can I take money out early?

##### Recommended holding period: 3 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 14 July 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	EuroTLX	<b>Price quotation</b>	Percentage
<b>Smallest tradable unit</b>	EUR 1,000.00		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

#### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: [emeamtnttrading@citi.com](mailto:emeamtnttrading@citi.com) or at the following website: <http://www.citigroup.com/>.
