What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is subject to intra-group credit risk. From time to time, the Issuer enters into derivative transactions with CGML to offset or hedge its liabilities to securityholders under securities issued by it (which may include the Securities). As such, the Issuer is exposed to the credit risk of CGML in the form of counterparty risk in respect of such derivative transactions. In particular, the Issuer's ability to fulfil its obligations under the Securities is primarily dependent on CGML performing its counterparty obligations owed to the Issuer in respect of such derivative transactions in a timely manner, and any failure by CGML to do so will negatively affect the ability of the Issuer to fulfil its obligations under the Securities. Securityholders will not have any recourse to CGML under any such derivative transactions.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.
- Following the military action by Russia in Ukraine, the U.S. has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organisations and/or individuals, with similar actions implemented and/or planned by the European Union, the UK and other jurisdictions. The Group's ability to engage in activity with certain consumer and institutional businesses in Russia and Ukraine or involving certain Russian or Ukrainian businesses and customers is dependent in part upon whether such engagement is restricted under any current or expected U.S., European Union, UK or other countries' sanctions and laws, or is otherwise discontinued in light of these developments. Sanctions and export controls, as well as any actions by Russia, could adversely affect the Group's business activities and customers in and from Russia and Ukraine. Any negative impact of Russia's actions in Ukraine, and related sanctions, export controls and similar actions or laws on the Group, including the Issuer, could adversely affect the ability of the Issuer to fulfil its obligations under the Securities, and the value of and return on the Securities may also be adversely affected.

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

Key risks in respect of the Guarantor:

The Guarantor is subject to the following key risks:

- The Guarantor is exposed to concentrations of risk, particularly credit and market risk. As regulatory or market developments continue to lead to increased centralisation of trading activities, the Guarantor could experience an increase in concentration of risk, which could limit the effectiveness of any hedging strategies and cause the Guarantor to incur significant losses. The Guarantor may be affected by macroeconomic, geopolitical and other challenges, uncertainties and volatilities, including the global COVID-19 pandemic and the military action by Russia in Ukraine (and related sanctions, export controls and similar actions or laws) which may negatively impact the businesses of the Guarantor and its ability to fulfil its obligations under the Securities, and the value of and return on the Securities.
- The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.
- If the relevant resolution authority is satisfied that the Guarantor is failing or likely to fail, and subject to certain other conditions being satisfied, the Guarantor may be subject to action taken by the resolution authority, including potentially the write down of claims of unsecured creditors of the Guarantor (such as under the deed of guarantee) and the conversion of unsecured debt claims (such as the under the deed of guarantee) to other instruments (e.g. equity shares), the transfer of all or part of the Guarantor's business to another entity, or other resolution measures. As a result of any such action, investors could lose some or all of their investment in the Securities.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. The value of Securities prior to their scheduled termination may vary due to a number of interrelated factors, including the value, dividend yield and volatility of the Underlying(s) and any changes in interim interest rates if applicable, and a sale of Securities prior to their scheduled termination may be at a substantial discount from the original purchase price and you may lose some or all of your investment. If, at maturity, a Termination Barrier Event has occurred and the Final Reference Level of the Termination Underlying is less than its Termination Initial Level, the Securities may be terminated for less than your initial investment or even zero.
- The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment.
- Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities.
- Amounts due in respect of the Securities are linked to the performance of the Underlying(s), which is a share. The value of a share may go down as well as up and the value of a share on any date may not reflect its performance in any prior period. The value and price volatility of a share, may affect the value of and return on the Securities.
- The Securities do not create an actual interest in, or ownership of, an Underlying and accordingly you will not have voting rights or rights to receive dividends or distributions or any other rights with respect to an Underlying. A Security will not represent a claim against an Underlying and, in the event that the amount paid on redemption of the Securities is less than your investment, you will not have recourse under any relevant Security to an Underlying in respect of such Securities. You will have no legal or beneficial interest in an Underlying. You may receive a lower return on the Securities than you would have received had you invested directly in an Underlying or through another product.
- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the price of an Underlying is scheduled to be taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.
- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or an Underlying and/or hedging arrangements, or may replace an Underlying with a new share. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
- The optional termination feature of the Securities may limit their market value. During any period when the Issuer may elect to terminate the Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. If the Securities are early redeemed at the option of the Issuer, you are subject to a reinvestment risk, as you may not be able to replace your investment in the Securities with an investment that has a similar profile of chances and risks as the Securities.
- The effectiveness of the offer of Securities will be conditional upon admission to trading by the issue date. In the event such admission to trading does not take place by the issue date, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation therefor.

KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in the Securities?

Terms and conditions of the offer

An offer of the Securities may be made by other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy (the "**Public Offer Jurisdiction**") by the Authorised Offeror during the period commencing on (and including) 9 March 2023 to (and including) 22 March 2023 (the "**Italian Offer Period**").

Investors may apply for the subscription of the Securities during normal Italian banking hours at the offices (*filiali*) of Banca Generali S.p.A. (the "**Distributor**") from (and including) 9 March 2023 to (and including) 22 March 2023, subject to early termination or extension of the Italian Offer Period.

The Securities may be placed in Italy outside the premises of the Distributor ("**door-to-door**"), by means of financial advisors authorised to make off-premises offers (*consulenti finanziari abilitati all'offerta fuori sede*) pursuant to Article 30 of Legislative Decree No. 58 of February 24, 1998, as amended (the "**Financial Services Act**") from (and including) 9 March 2023 to (and including) 22 March 2023, subject to early termination or extension of the Italian Offer Period.

The Securities may also be placed by means of distance communication techniques (*tecniche di comunicazione a distanza*) pursuant to article 32 of the Financial Services Act during the period commencing on (and including) 9 March 2023 to (and including) 22 March 2023, subject to early termination or extension of the Italian Offer Period. In this case, investors may subscribe the Securities, after being identified by the Distributor, by using their personal password/identification codes.

Pursuant to Article 67-duodecies of Legislative Decree 206/2005 as amended (the so called "Italian Consumer Code"), the validity and enforceability of the contracts

entered into is suspended for a period of fourteen days from the date of the subscription. Within such period investors may communicate their withdrawal to the relevant placer without any charge or commission.

The Offer Price is EUR 1,000 per Security (the "**Issue Price**").

The Issuer reserves the right, in agreement with the Distributor, to increase the number of Securities to be issued during the Italian Offer Period.

The effectiveness of the offer of the Securities is conditional upon the admission to trading of the Securities on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A., occurring by the issue date, being 11 April 2023. As between the Authorised Offeror and its customers, offers of the Securities are further subject to such conditions as may be agreed between them and/or as is specified in the arrangements in place between them.

Furthermore, the Guarantor has appointed Banca Generali S.p.A to carry out active marketing activities in respect of the Securities in the Republic of Italy, commencing on (and including) the first day on which the Securities are traded on Euro TLX and ending on (and including) the day on which Banca Generali S.p.A. ceases to carry on active marketing activities on the Republic of Italy, which date is expected to fall on or around 11 April 2024 (the "**Marketing Period**").

Estimated expenses or taxes charged to investor by issuer/offeror

The Issue Price of EUR 1,000 per Security includes a distribution fee of up to 1.50 per cent. (1.50%) of the Issue Price paid by the Dealer to the Distributor.

The exact amount of the distribution fee will be published not later than five Business Days after close of the Italian Offer Period on the website of the Issuer (<https://it.citifirst.com/Home>).

Furthermore, the Guarantor shall also pay to Banca Generali S.p.A. a fee of 0.50 per cent (0.50 %) of the Calculation Amount for each Security purchased on the EuroTLX market during the Marketing Period, for the active marketing activity in relation to the Securities to be performed by Banca Generali S.p.A. during the Marketing Period.

Who is the offeror and/or the person asking for admission to trading?

See the item entitled "Authorised Offeror(s)" above. The Issuer is the entity requesting for the admission to trading on the EuroTLX Market of the Securities.

Why is the Prospectus being produced?

Use and estimated net amount of proceeds

The net proceeds of the issue of the Securities will be used primarily to grant loans or other forms of funding to CGML and any entity belonging to the same Group, and may be used to finance the Issuer itself. The estimated net amount of proceeds is an amount equal to the final number of Securities issued on the issue date multiplied by the issue price per Security.

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Description of any interest material to the issue/offer, including conflicting interests

Fees are payable to Banca Generali S.p.A. The terms of the Securities confer on the Issuer, the calculation agent and certain other persons discretion in making judgements, determinations and calculations in relation to the Securities. Potential conflicts of interest may exist between the Issuer, calculation agent and holders of the Securities, including with respect to such judgements, determinations and calculations. The Issuer, CGML and/or any of their affiliates may also from time to time engage in transactions or enter into business relationships for their own account and/or possess information which affect or relate to the Securities and/or the Underlying(s). The Issuer, CGML and/or any of their affiliates have no obligation to disclose to investors any such information and may pursue actions and take steps that they deem necessary or appropriate to protect their interests without regard to the consequences for investors. Save as described above, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

Riserve nella relazione della società di revisione sulle informazioni finanziarie storiche: la relazione della società di revisione dell'Emittente non esprime riserve sulle informazioni finanziarie storiche certificate di quest'ultimo.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- L'Emittente è esposto al rischio di credito infragruppo. Di volta in volta, l'Emittente conclude operazioni in derivati con CGML per compensare o coprire le proprie passività verso i portatori dei titoli in base ai titoli da esso emessi (che possono includere gli Strumenti Finanziari). Pertanto, in relazione a tali operazioni su derivati l'Emittente è esposto al rischio di credito di CGML sotto forma di rischio di controparte. In particolare, la capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari dipende principalmente dal tempestivo adempimento da parte di CGML dei propri obblighi di controparte nei confronti dell'Emittente in relazione a tali operazioni su derivati e qualsiasi inadempimento da parte di CGML incide negativamente sulla capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari. I portatori di titoli non avranno alcun ricorso nei confronti di CGML ai sensi di tali operazioni su derivati.
- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato dei Titoli ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.
- A seguito dell'azione militare della Russia in Ucraina, gli Stati Uniti hanno imposto, e probabilmente imporranno ulteriori sanzioni finanziarie ed economiche e controlli sulle esportazioni contro alcune organizzazioni e/o individui russi, con azioni simili attuate e/o pianificate dall'Unione Europea, dal Regno Unito e altre giurisdizioni. La capacità del Gruppo di impegnarsi in attività con determinate imprese di consumo e istituzionali in Russia e Ucraina o che coinvolgono alcune imprese e clienti russi o ucraini dipende in parte dal fatto che tale impegno sia limitato o meno da qualsiasi azione in corso o prevista dagli Stati Uniti, Unione europea, Regno Unito o da sanzioni e leggi di altri paesi, o sia diversamente interrotto alla luce di questi sviluppi. Sanzioni e controlli sulle esportazioni così come eventuali azioni da parte della Russia, potrebbero influenzare negativamente le attività commerciali del Gruppo e i clienti in e dalla Russia e dall'Ucraina. Qualsiasi impatto negativo delle azioni della Russia in Ucraina, e relative sanzioni, controlli sulle esportazioni e azioni o leggi simili sul Gruppo, incluso l'Emittente, potrebbe influenzare negativamente la capacità dell'Emittente di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari, e anche il valore e il rendimento degli Strumenti Finanziari potrebbero essere influenzati negativamente.

Fattori di rischio associati al Garante:

Il Garante è soggetto ai seguenti rischi principali:

- Il Garante è esposto a concentrazioni di rischio, in particolare al rischio di credito e al rischio di mercato. Poiché gli sviluppi normativi o di mercato continuano a portare a una maggiore centralizzazione delle attività di negoziazione, il Garante potrebbe sperimentare un aumento della concentrazione di rischio, che potrebbe limitare l'efficacia di qualsiasi strategia di copertura e causare perdite significative per il Garante. Il Garante può risentire di problemi macroeconomici, geopolitici e di altro tipo, incertezze e volatilità, inclusa la pandemia mondiale COVID-19 e l'azione militare della Russia in Ucraina (e relative sanzioni, controlli sulle esportazioni e azioni simili o leggi), che possono influire negativamente sulle attività del Garante e sulla sua capacità di adempiere agli obblighi che gli competono in relazione agli Strumenti Finanziari, nonché sul valore e sul rendimento degli Strumenti Finanziari.
- Il Garante potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato al Garante e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento

garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.

- Se l'autorità di risoluzione pertinente è convinta che il Garante stia fallendo o rischi di fallire, e a condizione che siano soddisfatte alcune altre condizioni, il Garante potrebbe essere soggetto ad azioni intraprese dall'autorità di risoluzione, tra cui potenzialmente la svalutazione dei crediti dei creditori non garantiti del Garante (come nell'atto di garanzia) e la conversione dei crediti non garantiti (come nell'atto di garanzia) in altri strumenti (es. ad esempio azioni), il trasferimento di tutta o parte dell'attività del Garante ad un'altra entità, o altre misure di risoluzione. Come risultato di tali azioni, gli investitori potrebbero perdere parte o tutto il loro investimento nei Titoli.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Dovete essere pronti a sostenere una perdita totale o parziale del prezzo di acquisto dei vostri Strumenti Finanziari. Il valore degli Strumenti Finanziari prima del loro regolamento programmato può variare a causa di una serie di fattori interconnessi, tra cui il valore, il rendimento dei dividendi e la volatilità del/i Sottostante/i e qualsiasi cambiamento nei tassi di interesse intermedi, se applicabili, e una vendita degli Strumenti Finanziari prima del loro regolamento programmato può avvenire ad uno sconto sostanziale rispetto al prezzo di acquisto originale e si può perdere parte o tutto il proprio investimento. Se, alla scadenza, si è verificato un Evento Barriera di Regolamento ed il Livello di Riferimento Finale del Sottostante di Regolamento è inferiore al suo Livello Iniziale di Regolamento, l'importo del pagamento a scadenza potrà essere inferiore all'investimento iniziale o anche pari a zero.
- Gli obblighi dell'Emittente ai sensi degli Strumenti Finanziari e gli obblighi del Garante previsti dall'atto di garanzia rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun altro soggetto. Di conseguenza, i pagamenti effettuati ai sensi degli Strumenti Finanziari sono esposti al rischio di credito dell'Emittente e del Garante. I portatori degli Strumenti Finanziari non potranno fare ricorso ad alcuna attività garantita dell'Emittente e del Garante nel caso in cui l'Emittente o il Garante non siano in grado di soddisfare gli obblighi che loro competono ai sensi degli Strumenti Finanziari, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.
- Gli Strumenti Finanziari potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere gli Strumenti Finanziari fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Strumenti Finanziari o potrebbe non riuscirvi affatto o potrebbe essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura negativa rilevante sul valore di mercato degli Strumenti Finanziari.
- Gli importi dovuti a fronte degli Strumenti Finanziari sono legati all'andamento del/i Sottostante/i, che è un'azione. Il valore di un'azione può diminuire o aumentare e il valore di un'azione in qualsiasi data può non riflettere il suo rendimento in qualsiasi periodo precedente. Il valore e la volatilità del prezzo di un'azione possono influenzare il valore e il rendimento degli Strumenti Finanziari.
- Gli Strumenti Finanziari non creano una partecipazione effettiva in, o la proprietà di, un Sottostante e di conseguenza non avrete diritto di voto o di ricevere dividendi o distribuzioni o qualsiasi altro diritto in relazione ad un Sottostante. Uno Strumento Finanziario non rappresenterà un credito nei confronti di un Sottostante e, nel caso in cui l'importo pagato al momento del regolamento degli Strumenti Finanziari sia inferiore al vostro investimento, non rivalervi ai sensi degli Strumenti Finanziari su alcun Sottostante. Non avrete alcun interesse o beneficio legale in un Sottostante. Potreste ricevere un rendimento sugli Strumenti Finanziari inferiore a quello che avreste ricevuto se aveste investito direttamente in un Sottostante o attraverso un altro prodotto.
- I termini e le condizioni degli Strumenti Finanziari includono disposizioni relative al rinvio delle date in cui si prevede di ottenere il prezzo di un Sottostante. Tale rinvio o disposizioni alternative di valutazione previste nei termini e condizioni degli Strumenti Finanziari possono avere un effetto negativo sul valore di tali Strumenti Finanziari.
- L'agente di calcolo può effettuare rettifiche alle condizioni degli Strumenti Finanziari per tenere conto dell'effetto di alcuni eventi di rettifica che si verificano in relazione agli Strumenti Finanziari o ad un Sottostante e/o ad accordi di copertura, o può sostituire un Sottostante con una nuova azione. Tali rettifiche possono avere un effetto negativo sul valore di tali Strumenti Finanziari. In determinate circostanze (ad esempio, se l'agente di calcolo determina che non è ragionevolmente possibile effettuare alcun calcolo, aggiustamento o sostituzione, a seguito di un evento di default o di determinati eventi che influenzano un Sottostante o gli accordi di copertura dell'Emittente, o per ragioni relative alla tassazione o all'illegalità), gli Strumenti Finanziari possono essere regolati anticipatamente. Se gli Strumenti Finanziari vengono regolati anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste quindi subire una perdita.
- La caratteristica di regolamento opzionale degli Strumenti Finanziari può limitare il loro valore di mercato. Durante qualsiasi periodo in cui l'Emittente può decidere di regolare gli Strumenti Finanziari, il valore di mercato di tali Strumenti Finanziari generalmente non salirà sostanzialmente al di sopra del prezzo al quale possono essere rimborsati. Se gli Strumenti Finanziari sono rimborsati anticipatamente a discrezione dell'Emittente, siete soggetti a un rischio di reinvestimento, in quanto potreste non essere in grado di sostituire il vostro investimento negli Strumenti Finanziari con un investimento che abbia un profilo di possibilità e rischi simile a quello degli Strumenti Finanziari.
- L'efficacia dell'offerta degli Strumenti Finanziari sarà subordinata all'ammissione alla negoziazione entro la data di emissione. Nel caso in cui tale ammissione alla negoziazione non avvenga entro la data di emissione, l'Emittente ritirerà l'offerta, l'offerta sarà considerata nulla e non valida e i relativi Strumenti Finanziari non saranno emessi. Di conseguenza, non riceverete alcuno Strumento Finanziario, i diritti di sottoscrizione degli Strumenti Finanziari saranno cancellati e non avrete diritto ad alcun indennizzo.
