10.TERMS AND CONDITIONS OF THE OFFER

Offer Price: Issue Price, equal to 100 per cent. of the Specified Denomination of each Security.

The Offer Price includes, per Specified Denomination, a commission for the distribution of the Securities paid by the Dealer to the Distributor, equal to up to 1.62 per cent. (1.62%) of the Specified Denomination of the Securities distributed by the Distributor.

Investors should take into account that if the Securities are sold on the secondary market after the Italian Offer Period, the above mentioned commissions included in the Offer Price are not taken into consideration in determining the price at which such Securities may be sold in the secondary market.

Conditions to which the Offer is subject: The offer of the Securities is conditional on their issue.

The Issuer may at any time during the Italian Offer Period terminate early the Italian Offer Period and

immediately suspend the acceptance of additional orders without any prior notice. If the Italian Offer Period is terminated early, a notice to that effect will be made available during normal business hours at the registered office of the Distributor and on the website of the Issuer (<https://it.citifirst.com/Home>).

The offer of Securities may be withdrawn in whole or in part at any time before the Issue Date at the discretion of the Issuer and any such withdrawal will be set out in one or more notices to be made available during normal business hours at the registered office of the Distributor and on the website of the Issuer (<https://it.citifirst.com/Home>). For the avoidance of doubt, if any application has been made by a potential investor and the Issuer exercises such right, the relevant subscription applications will become void and have no effect and no potential investor will be entitled to receive the relevant Securities.

The Issuer reserves the right, in agreement with the Distributor, to extend the Italian Offer Period. If the Italian Offer Period is extended, a notice to that effect will be made available during normal business hours at the registered office of the Distributor and on the website of the Issuer (<https://it.citifirst.com/Home>).

(formerly organised and managed by EuroTLX SIM S.p.A. merged with and into Borsa Italiana S.p.A.), occurring by the Issue Date. The Issuer and the Distributor will inform the public of the withdrawal of the offer of the Securities and the cancellation of the relevant issue by means of a notice to be made available on the

website of the Issuer (<https://it.citifirst.com/Home>).

The Distributor is responsible for the notification of any withdrawal right applicable in relation to the offer of the Securities to potential investors.

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Issuer on its audited historical financial information.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is subject to intra-group credit risk. From time to time, the Issuer enters into derivative transactions with CGML to offset or hedge its liabilities to securityholders under securities issued by it (which may include the Securities). As such, the Issuer is exposed to the credit risk of CGML in the form of counterparty risk in respect of such derivative transactions. In particular, the Issuer's ability to fulfil its obligations under the Securities is primarily dependent on CGML performing its counterparty obligations owed to the Issuer in respect of such derivative transactions in a timely manner, and any failure by CGML to do so will negatively affect the ability of the Issuer to fulfil its obligations under the Securities. Securityholders will not have any recourse to CGML under any such derivative transactions.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.
- The COVID-19 pandemic has had, and will likely continue to have, negative impacts on the Group's businesses, revenues, expenses, credit costs and overall results of operations and financial condition which could be material. Any such negative impact on the Group (including the Issuer), could adversely affect the ability of the Issuer to fulfil its obligations under the Securities, and consequently the value of and return on the Securities may also be adversely affected.

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

Key risks in respect of the Guarantor: The Guarantor is subject to the following key risks:

- The Guarantor is exposed to concentrations of risk, particularly credit and market risk. As regulatory or market developments continue to lead to increased centralisation of trading activities, the Guarantor could experience an increase in concentration of risk, which could limit the effectiveness of any hedging strategies and cause the Guarantor to incur significant losses. The Guarantor may also be affected by macroeconomic, geopolitical and other challenges, uncertainties and volatilities, which may negatively impact the businesses of the Guarantor and its ability to fulfil its obligations under the Securities, and the value of and return on the Securities.
- The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. If, at maturity, a Termination Barrier Event has occurred and the Final Reference Level of the Termination Underlying is less than its Termination Initial Level, the Securities will be terminated for less than your initial investment or even zero.
- The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment.
- Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities.
- Amounts due in respect of the Securities are linked to the performance of the Underlying(s), which is a share. The value of a share may go down as well as up and the value of a share on any date may not reflect its performance in any prior period. The value and price volatility of a share, may affect the value of and return on the Securities.
- The Securities do not create an actual interest in, or ownership of, an Underlying and accordingly you will not have voting rights or rights to receive dividends or distributions or any other rights with respect to an Underlying. A Security will not represent a claim against an Underlying and, in the event that the amount paid on redemption of the Securities is less than your investment, you will not have recourse under any relevant Security to an Underlying in respect of such Securities. You will have no legal or beneficial interest in an Underlying. You may receive a lower return on the Securities than you would have received had you invested directly in an Underlying or through another product.
- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the price of an Underlying is

scheduled to be taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.

- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or an Underlying and/or hedging arrangements, or may replace an Underlying with a new share. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
- Investment in the Securities involves the risk that if market interest rates subsequently increase above the rate paid on Securities, this will adversely affect the value of the Securities.
- Following the occurrence of a Mandatory Early Termination Barrier Event, the Securities will be terminated on the relevant Mandatory Early Termination Date at the relevant Mandatory Early Termination Amount and no further amount shall be payable in respect of the Securities after the Mandatory Early Termination Date. In this case, you are subject to a reinvestment risk, as you may not be able to replace your investment in the Securities with an investment that has a similar profile of chances and risks as the Securities.
- The effectiveness of the offer of Securities will be conditional upon admission to trading by the issue date. In the event such admission to trading does not take place by the issue date, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation therefor.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- L'Emittente è esposto al rischio di credito infragruppo. Di volta in volta, l'Emittente conclude operazioni in derivati con CGML per compensare o coprire le proprie passività verso i portatori dei titoli in base ai titoli da esso emessi (che possono includere gli Strumenti Finanziari). Pertanto, in relazione a tali operazioni su derivati l'Emittente è esposto al rischio di credito di CGML sotto forma di rischio di controparte. In particolare, la capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari dipende principalmente dal tempestivo adempimento da parte di CGML dei propri obblighi di controparte nei confronti dell'Emittente in relazione a tali operazioni su derivati e qualsiasi inadempimento da parte di CGML incide negativamente sulla capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari. I portatori di titoli non avranno alcun ricorso nei confronti di CGML ai sensi di tali operazioni su derivati.
- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato dei Titoli ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.
- La pandemia di COVID-19 ha prodotto, e probabilmente continuerà a produrre, impatti negativi potenzialmente rilevanti sulle attività, i ricavi, le spese, i costi di finanziamento e i risultati complessivi delle operazioni e sulle condizioni finanziarie del Gruppo. Qualsiasi impatto negativo di questo tipo sul Gruppo (Emittente incluso) potrebbe influire negativamente sulla capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari e, di conseguenza, anche il valore e il rendimento degli Strumenti Finanziari potrebbero esserne negativamente influenzati.

Riserve nella relazione della società di revisione sulle informazioni finanziarie storiche: la relazione della società di revisione del Garante non esprime riserve sulle informazioni finanziarie storiche certificate di quest'ultimo.

Fattori di rischio associati al Garante:

- Il Garante è esposto a concentrazioni di rischio, in particolare al rischio di credito e al rischio di mercato. Poiché gli sviluppi normativi o di mercato continuano a portare a una maggiore centralizzazione delle attività di negoziazione, il Garante potrebbe sperimentare un aumento della concentrazione di rischio, che potrebbe limitare l'efficacia di qualsiasi strategia di copertura e causare perdite significative per il Garante. Il Garante può inoltre risentire di problemi macroeconomici, geopolitici e di altro tipo, incertezze e volatilità, che possono influire negativamente sulle attività del Garante e sulla sua capacità di adempiere agli obblighi che gli competono in relazione ai Titoli, nonché sul valore e sul rendimento degli Strumenti Finanziari.
- Il Garante potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato al Garante e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Dovete essere pronti a sostenere una perdita totale o parziale del prezzo di acquisto dei vostri Strumenti Finanziari. Se, alla scadenza, si è verificato un Evento Barriera di Regolamento ed il Livello di Riferimento Finale del Sottostante di Regolamento è inferiore al suo Livello Iniziale di Regolamento, gli Strumenti Finanziari saranno rimborsati inferiormente rispetto al vostro investimento iniziale o addirittura zero.

- Gli obblighi dell'Emittente ai sensi degli Strumenti Finanziari e gli obblighi del Garante previsti dall'atto di garanzia rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun'altra persona. Di conseguenza, i pagamenti effettuati ai sensi degli Strumenti Finanziari sono esposti al rischio di credito dell'Emittente e del Garante. I portatori degli Strumenti Finanziari non potranno fare ricorso ad alcuna attività garantita dell'Emittente e del Garante nel caso in cui l'Emittente o il Garante non siano in grado di soddisfare gli obblighi che loro competono ai sensi degli Strumenti Finanziari, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.
- Gli Strumenti Finanziari potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere gli Strumenti Finanziari fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Strumenti Finanziari o potrebbe non riuscirvi affatto o potrebbe essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura negativa rilevante sul valore di mercato degli Strumenti Finanziari.
- Gli importi dovuti a fronte degli Strumenti Finanziari sono legati all'andamento del/i Sottostante/i, che è un'azione. Il valore di un'azione può diminuire o aumentare e il valore di un'azione in qualsiasi data può non riflettere il suo rendimento in qualsiasi periodo precedente. Il valore e la volatilità del prezzo di un'azione possono influenzare il valore e il rendimento degli Strumenti Finanziari.
- Gli Strumenti Finanziari non creano una partecipazione effettiva in, o la proprietà di, un Sottostante e di conseguenza non avrete diritto di voto o di ricevere dividendi o distribuzioni o qualsiasi altro diritto in relazione ad un Sottostante. Uno Strumento Finanziario non rappresenterà un credito nei confronti di un Sottostante e, nel caso in cui l'importo pagato al momento del regolamento degli Strumenti Finanziari sia inferiore al vostro investimento, non potrete ricorrere ad un Sottostante in relazione a tali Strumenti Finanziari. Non avrete alcun interesse o beneficio legale in un Sottostante. Potreste ricevere un rendimento sugli Strumenti Finanziari inferiore a quello che avreste ricevuto se aveste investito direttamente in un Sottostante o attraverso un altro prodotto.
- I termini e le condizioni degli Strumenti Finanziari includono disposizioni relative al rinvio delle date in cui si prevede di ottenere il prezzo di un Sottostante. Tale rinvio o disposizioni alternative di valutazione previste nei termini e condizioni degli Strumenti Finanziari possono avere un effetto negativo sul valore di tali Strumenti Finanziari.
- L'agente di calcolo può effettuare rettifiche alle condizioni degli Strumenti Finanziari per tenere conto dell'effetto di alcuni eventi di rettifica che si verificano in relazione agli Strumenti Finanziari o ad un Sottostante e/o ad accordi di copertura, o può sostituire un Sottostante con una nuova azione. Tali rettifiche possono avere un effetto negativo sul valore di tali Strumenti Finanziari. In determinate circostanze (ad esempio, se l'agente di calcolo determina che non è ragionevolmente possibile effettuare alcun calcolo, aggiustamento o sostituzione, a seguito di un evento di default o di determinati eventi che influenzano un Sottostante o gli accordi di copertura dell'Emittente, o per ragioni relative alla tassazione o all'illegalità), gli Strumenti Finanziari possono essere regolati anticipatamente. Se gli Strumenti Finanziari vengono regolati anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste quindi subire una perdita.
- L'investimento negli Strumenti Finanziari comporta il rischio che se i tassi di interesse di mercato dovessero successivamente aumentare al di sopra del tasso pagato sugli Strumenti Finanziari, ciò influirà negativamente sul valore dei Strumenti Finanziari.
- A seguito del verificarsi di un Evento di Barriera di Regolamento Anticipato Obbligatorio, gli Strumenti Finanziari saranno regolati alla relativa Data di Regolamento Anticipato Obbligatorio al relativo Importo di Regolamento Anticipato Obbligatorio e nessun ulteriore importo sarà dovuto in relazione agli Strumenti Finanziari dopo la Data di Regolamento Anticipato Obbligatorio. In questo caso, siete soggetti al rischio di reinvestimento, in quanto potreste non essere in grado di sostituire il vostro investimento negli Strumenti Finanziari con un investimento che abbia un profilo di probabilità e di rischio simile a quello degli Strumenti Finanziari.
- L'efficacia dell'offerta degli Strumenti Finanziari sarà subordinata all'ammissione alla negoziazione entro la data di emissione. Nel caso in cui tale ammissione alla negoziazione non avvenga entro la data di emissione, l'Emittente ritirerà l'offerta, l'offerta sarà considerata nulla e non valida e i relativi Strumenti Finanziari non saranno emessi. Di conseguenza, non riceverete alcuno Strumento Finanziario, i diritti di sottoscrizione degli Strumenti Finanziari saranno cancellati e non avrete diritto ad alcun indennizzo.
