What are the key risks that are specific to the Issuer?				
The Issuer is subject to the following key risks: - The Issuer is subject to intra-group credit risk. From time to time, the Issuer enters into derivative transactions with CGML to offset or hedge its liabilities to securityholders under securities issued by it (which may include the Securities). As such, the Issuer is exposed to the credit risk of CGML in the form of counterparty risk in respect of such derivative transactions. In particular, the Issuer's ability to fulfil its obligations under the Securities is primarily dependent on CGML performing its counterparty obligations owed to the Issuer in respect of such derivative transactions in a timely manner, and any failure by CGML to do so will negatively affect the ability of the Issuer to fulfil its obligations under the Securities. Securityholders will not have any recourse to CGML under any such derivative transactions. - The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. - Following the military action by Russia in Ukraine, the U.S. has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organisations and/or individuals, with similar actions implemented and/or planned by the European Union, the UK and other jurisdictions. The Group's ability to engage in activity with certain consumer and institutional businesses in Russia and Ukraine or involving certain Russian or Ukrainian businesses and customers is dependent in part upon whether such engagement is restricted under any current or expected U.S., European Union, UK or other countries' sanctions and laws, or is otherwise discontinued in light of these developments. Sanctions and export controls, as well as any actions by Russia, could adversely affect the Group's business activities and customers in and from Russia and Ukraine. Any negative impact of Russia's actions in Ukraine, and related sanctions, export controls and similar actions or laws on the Group, including the Issuer, could adversely affect the ability of the Issuer to fulfil its obligations under the Securities, and the value of and return on the Securities may also be adversely affected.

Adjustments: The terms and conditions of the Securities contain provisions, including provisions relating to events affecting the Underlying(s) or hedging arrangements in respect of the Securities, market disruption provisions and provisions relating to subsequent corrections of the price of the Underlying(s) and details of the consequences of such events. Such provisions may where applicable permit adjustments to be made to the terms and conditions of the Securities. The terms and conditions of the Securities also permit the adjustment of payments dates for non-business days.

Bail-in: Any exercise of such bail-in power or other action taken by a relevant resolution authority in respect of the Guarantor could materially adversely affect the value of and return on the Securities.

Description of restrictions on free transferability of the Securities

Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.				
Key risks in respect of the Guarantor: The Guarantor is subject to the following key risks:				
- The Guarantor is exposed to concentrations of risk, particularly credit and market risk. As regulatory or market developments continue to lead to increased centralisation of trading activities, the Guarantor could experience an increase in concentration of risk, which could limit the effectiveness of any hedging strategies and cause the Guarantor to incur significant losses. The Guarantor may be affected by macroeconomic, geopolitical and other challenges, uncertainties and volatilities, including the global COVID-19 pandemic and the military action by Russia in Ukraine (and related sanctions, export controls and similar actions or laws), which may negatively impact the businesses of the Guarantor and its ability to fulfil its obligations under the Securities, and the value of and return on the Securities. - The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. - If the relevant resolution authority is satisfied that the Guarantor is failing or likely to fail, and subject to certain other conditions being satisfied, the Guarantor may be subject to action taken by the resolution authority, including potentially the write down of claims of unsecured creditors of the Guarantor (such as under the deed of guarantee) and the conversion of unsecured debt claims (such as the under the deed of guarantee) to other instruments (e.g. equity shares), the transfer of all or part of the Guarantor's business to another entity, or other resolution measures. As a result of any such action, investors could lose some or all of their investment in the Securities.				
What are the key risks that are specific to the Securities?				
The Securities are subject to the following key risks:				
- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. The value of Securities prior to their scheduled termination may vary due to a number of interrelated factor including the value, dividend yield and volatility of the Underlying(s) and any changes in interim interest rates if applicable, and a sale of Securities prior to their scheduled termination may be at a substantial discount from the original purchase price and you may lose some or all of your investment. If, at maturity, a Termination Barrier Event has occurred and the Final Reference Level of the Final Performance Underlying is less than its Termination Initial Level, the Securities may be terminated for less than your initial investment or even zero. - The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment. - Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities. - Amounts due in respect of the Securities are linked to the performance of the Underlyings, which are a basket of shares and a depositary receipt. The value of a share/depositary				

receipt may go down as well as up and the value of a share/depositary receipt on any date may not reflect its performance in any prior period. The value and price volatility of a share/depositary receipt, may affect the value of and return on the Securities.

- The Securities do not create an actual interest in, or ownership of the Underlyings, which are a basket of shares and depositary receipt and/or in any underlying shares related to such depositary receipt, and accordingly you will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the Underlyings shares/depositary receipt nor to any underlying shares related to such depositary receipt. A Security will not represent a claim against the Underlyings shares/depositary receipt nor against any underlying shares related to such depositary receipt and, in the event that the amount paid on redemption of the Securities is less than your investment, you will not have recourse under any relevant Security to the Underlyings shares/depositary receipt and/or to any underlying shares related to such depositary receipt, in respect of such Securities. You will have no legal or beneficial interest in the Underlyings shares/depositary receipt nor in any underlying shares related to such depositary receipt. You may receive a lower return on the Securities than you would have received had you invested directly in the Underlyings shares/depositary receipt and/or in any underlying shares related to such depositary receipt, or through another product.
- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the price of an Underlying is scheduled to be taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.
- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or the Underlyings shares/depositary receipt and/or any underlying shares related to such depositary receipt and/or hedging arrangements, or may replace the relevant share with a new share and the relevant depositary receipt and/or the underlying share relating to such depositary receipt with a new depositary receipt and/or with a new underlying share relating to such depositary receipt. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
- Following the occurrence of a Mandatory Early Termination Barrier Event, the Securities will be terminated on the relevant Mandatory Early Termination Date at the relevant Mandatory Early Termination Amount and no further amount shall be payable in respect of the Securities after the Mandatory Early Termination Date. In this case, you are subject to a reinvestment risk, as you may not be able to replace your investment in the Securities with an investment that has a similar profile of chances and risks as the Securities.
- The effectiveness of the offer of Securities will be conditional upon admission to trading by the issue date. In the event such admission to trading does not take place by the issue date, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation therefor.

Riserve nella relazione della società di revisione sulle informazioni finanziarie storiche: la relazione della società di revisione dell'Emittente non esprime riserve sulle informazioni finanziarie storiche certificate di quest'ultimo.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- L'Emittente è esposto al rischio di credito infragruppo. Di volta in volta, l'Emittente conclude operazioni in derivati con CGML per compensare o coprire le proprie passività verso i portatori dei titoli in base ai titoli da esso emessi (che possono includere gli Strumenti Finanziari). Pertanto, in relazione a tali operazioni su derivati l'Emittente è esposto al rischio di credito di CGML sotto forma di rischio di controparte. In particolare, la capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari dipende principalmente dal tempestivo adempimento da parte di CGML dei propri obblighi di controparte nei confronti dell'Emittente in relazione a tali operazioni su derivati e qualsiasi inadempienza da parte di CGML incide negativamente sulla capacità dell'Emittente di adempiere agli obblighi che gli competono ai sensi degli Strumenti Finanziari. I portatori di titoli non avranno alcun ricorso nei confronti di CGML ai sensi di tali operazioni su derivati.
- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato dei Titoli ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.
- A seguito dell'azione militare della Russia in Ucraina, gli Stati Uniti hanno imposto, e probabilmente imporranno ulteriori sanzioni finanziarie ed economiche e controlli sulle esportazioni contro alcune organizzazioni e/o individui russi, con azioni simili attuate e/o pianificate dall'Unione Europea, dal Regno Unito e altre giurisdizioni. La capacità del Gruppo di impegnarsi in attività con determinate imprese di consumo e istituzionali in Russia e Ucraina o che coinvolgono alcune imprese e clienti russi o ucraini dipende in parte dal fatto che tale impegno sia limitato o meno da qualsiasi azione in corso o prevista dagli Stati Uniti, Unione europea, Regno Unito o da sanzioni e leggi di altri paesi, o sia diversamente interrotto alla luce di questi sviluppi. Sanzioni e controlli sulle esportazioni così come eventuali azioni da parte della Russia, potrebbero influenzare negativamente le attività commerciali del Gruppo e i clienti in e dalla Russia e dall'Ucraina. Qualsiasi impatto negativo delle azioni della Russia in Ucraina, e relative sanzioni, controlli sulle esportazioni e azioni o leggi simili sul Gruppo, incluso l'Emittente, potrebbe influenzare negativamente la capacità dell'Emittente di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari, e anche il valore e il rendimento degli Strumenti Finanziari potrebbero essere influenzati negativamente.

Regolamento Anticipato: Gli Strumenti Finanziari possono essere regolati anticipatamente a seguito del verificarsi di alcuni eventi o circostanze specifiche (ad esempio, compreso un evento che influisce sul Sottostante (o sui Sottostanti) o sugli accordi di copertura dell'Emittente, un evento di default, e circostanze relative alla tassazione e all'illegalità) ad un importo che sarà determinato dall'agente di calcolo in conformità con i termini e le condizioni degli Strumenti Finanziari

Rettifiche: I termini e le condizioni degli Strumenti Finanziari contengono disposizioni, incluse le disposizioni relative agli eventi che riguardano il/i Sottostante/i o gli accordi di copertura in relazione agli Strumenti Finanziari, le disposizioni relative alla turbativa del mercato e le disposizioni relative alle successive correzioni del prezzo del/i Sottostante/i e i dettagli delle conseguenze di tali eventi. Tali disposizioni possono consentire, se del caso, di apportare modifiche ai termini e alle condizioni degli Strumenti Finanziari. I termini e le condizioni degli Strumenti Finanziari permettono inoltre la rettifica delle date di pagamento per i giorni non lavorativi.

Assemblee: I termini e le condizioni degli Strumenti Finanziari contengono disposizioni per la convocazione di assemblee dei possessori degli Strumenti Finanziari per esaminare questioni che riguardano i loro interessi in generale. Tali disposizioni consentono di vincolare tutti i detentori, compresi i detentori che non hanno partecipato e votato all'assemblea in questione e i detentori che hanno votato in modo contrario alla maggioranza.

Legge applicabile: gli Strumenti Finanziari saranno regolati dalla legge inglese.

Bail-in: Qualsiasi esercizio di tale potere di bail-in o altra azione intrapresa da un'autorità di risoluzione rilevante delle crisi nei confronti del Garante potrebbe materialmente influire negativamente sul valore e sulla remunerazione degli Strumenti Finanziari

Stato degli Strumenti Finanziari: Gli Strumenti Finanziari costituiscono obbligazioni dirette, non condizionate, non subordinate e non garantite dell'Emittente e si classificheranno in ogni momento *pari passu e pro quota* tra loro e almeno *pari passu* rispetto a tutte le altre obbligazioni non garantite e non subordinate in circolazione

Fattori di rischio associati al Garante:

Il Garante è soggetto ai seguenti rischi principali:

- Il Garante è esposto a concentrazioni di rischio, in particolare al rischio di credito e al rischio di mercato. Poiché gli sviluppi normativi o di mercato continuano a portare a una maggiore centralizzazione delle attività di negoziazione, il Garante potrebbe sperimentare un aumento della concentrazione di rischio, che potrebbe limitare l'efficacia di qualsiasi strategia di copertura e causare perdite significative per il Garante. Il Garante può risentire di problemi macroeconomici, geopolitici e di altro tipo, incertezze e volatilità, inclusa la pandemia mondiale COVID-19 e l'azione militare della Russia in Ucraina (e relative sanzioni, controlli sulle esportazioni e azioni simili o leggi), che possono influire negativamente sulle attività del Garante e sulla sua capacità di adempiere agli obblighi che gli competono in relazione agli Strumenti Finanziari, nonché sul valore e sul rendimento degli Strumenti Finanziari.
- Il Garante potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato al Garante e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risentano. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.
- Se l'autorità di risoluzione pertinente è convinta che il Garante stia fallendo o rischi di fallire, e a condizione che siano soddisfatte alcune altre condizioni, il Garante potrebbe essere soggetto ad azioni intraprese dall'autorità di risoluzione, tra cui potenzialmente la svalutazione dei crediti dei creditori non garantiti del Garante (come nell'atto di garanzia) e la conversione dei crediti non garantiti (come nell'atto di garanzia) in altri strumenti (es. ad esempio azioni), il trasferimento di tutta o parte dell'attività del Garante ad un'altra entità, o altre misure di risoluzione. Come risultato di tali azioni, gli investitori potrebbero perdere parte o tutto il loro investimento nei Titoli.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Dovete essere pronti a sostenere una perdita totale o parziale del prezzo di acquisto dei vostri Strumenti Finanziari. Il valore degli Strumenti Finanziari prima del loro rimborso programmato può variare a causa di una serie di fattori interconnessi, tra cui il valore, il rendimento dei dividendi e la volatilità del/i Sottostante/i e qualsiasi cambiamento nei tassi di interesse intermedi, se applicabili, e una vendita degli Strumenti Finanziari prima del loro rimborso programmato può avvenire ad uno sconto sostanziale rispetto al prezzo di acquisto originale e si può perdere parte o tutto il proprio investimento. Se, alla scadenza, si è verificato un Evento Barriera di Regolamento ed il Livello di Riferimento Finale del Sottostante della Performance Finale è inferiore al suo Livello Iniziale di Regolamento, gli Strumenti Finanziari potrebbero essere rimborsati inferiormente rispetto al vostro investimento iniziale o addirittura zero.
- Gli obblighi dell'Emittente ai sensi degli Strumenti Finanziari e gli obblighi del Garante previsti dall'atto di garanzia rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun'altra persona. Di conseguenza, i pagamenti effettuati ai sensi degli Strumenti Finanziari sono esposti al rischio di credito dell'Emittente e del Garante. I portatori degli Strumenti Finanziari non potranno fare ricorso ad alcuna attività garantita dell'Emittente e del Garante nel caso in cui l'Emittente o il Garante non siano in grado di soddisfare gli obblighi che loro competono ai sensi degli Strumenti Finanziari, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.
- Gli Strumenti Finanziari potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere gli Strumenti Finanziari fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Strumenti Finanziari o potrebbe non riuscirvi affatto o potrebbe essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura negativa rilevante sul valore di mercato degli Strumenti Finanziari.
- Gli importi dovuti a fronte degli Strumenti Finanziari sono legati all'andamento del/i Sottostante/i, che è un paniere di azioni e una ricevuta di deposito. Il valore di un'azione/ricevuta di deposito può diminuire o aumentare e il valore di un'azione/ricevuta di deposito in qualsiasi data può non riflettere il suo rendimento in qualsiasi periodo precedente. Il valore e la volatilità del prezzo di un'azione/ricevuta di deposito possono influenzare il valore e il rendimento degli Strumenti Finanziari.
- Gli Strumenti non creano una partecipazione effettiva in, o la proprietà di, un Sottostante, che è un paniere di azioni e una ricevuta di deposito e/o in qualsiasi azione sottostante collegata a tale ricevuta di deposito, e di conseguenza non avrete diritto di voto o di ricevere dividendi o distribuzioni o qualsiasi altro diritto in relazione alle azioni/ricevute di deposito dei Sottostanti né a qualsiasi azione sottostante collegata a tale ricevuta di deposito. Uno Strumento non rappresenterà un credito nei confronti delle azioni/ricevute di deposito del Sottostante né nei confronti di alcuna azione sottostante collegata a tale ricevuta di deposito e, nel caso in cui l'importo pagato al momento del regolamento degli Strumenti sia inferiore al vostro investimento, non potrete ricorrere ad un'azione/ricevuta di deposito del Sottostante e/o di alcuna azione sottostante collegata a tale ricevuta di deposito in relazione a tali Strumenti. Non avrete alcun interesse o beneficio legale nelle azioni/ricevute di deposito del Sottostante. Potreste ricevere un rendimento sugli Strumenti Finanziari inferiore a quello che avreste ricevuto se aveste investito direttamente nelle azioni/ricevute di deposito del Sottostante e/o in qualsiasi azione sottostante collegata a tale ricevuta di deposito, o attraverso un altro prodotto.
- I termini e le condizioni degli Strumenti Finanziari includono disposizioni relative al rinvio delle date in cui si prevede di ottenere il prezzo di un Sottostante. Tale rinvio o disposizioni alternative di valutazione previste nei termini e condizioni degli Strumenti Finanziari possono avere un effetto negativo sul valore di tali Strumenti Finanziari.
- L'agente di calcolo può effettuare rettifiche alle condizioni degli Strumenti Finanziari per tenere conto dell'effetto di alcuni eventi di rettifica che si verificano in relazione agli Strumenti Finanziari o a alle azioni/ricevute di deposito dei Sottostanti e/o a qualsiasi azione sottostante relativa a tale ricevuta di deposito e/o ad accordi di copertura, o può sostituire l'azione pertinente con una nuova azione e la relativa ricevuta di deposito e/o l'azione sottostante relativa a tale ricevuta di deposito con una nuova ricevuta di deposito e/o con una nuova azione sottostante relativa a tale ricevuta di deposito. Tali rettifiche possono avere un effetto negativo sul valore di tali Strumenti Finanziari. In determinate circostanze (ad esempio, se l'agente di calcolo determina che non è ragionevolmente possibile effettuare alcun calcolo, aggiustamento o sostituzione, a seguito di un evento di default o di determinati eventi che influenzano un Sottostante o gli accordi di copertura dell'Emittente, o per ragioni relative alla tassazione o all'illegalità), gli Strumenti Finanziari possono essere regolati anticipatamente. Se gli Strumenti Finanziari vengono regolati anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste quindi subire una perdita.
- A seguito del verificarsi di un Evento di Barriera di Regolamento Anticipato Obbligatorio, gli Strumenti Finanziari saranno regolati alla relativa Data di Regolamento Anticipato Obbligatorio al relativo Importo di Regolamento Anticipato Obbligatorio e nessun ulteriore importo sarà dovuto in relazione agli Strumenti Finanziari dopo la Data di Regolamento Anticipato Obbligatorio. In questo caso, siete soggetti al rischio di reinvestimento, in quanto potreste non essere in grado di sostituire il vostro investimento negli Strumenti Finanziari con un investimento che abbia un profilo di probabilità e di rischio simile a quello degli Strumenti Finanziari.
